INTRODUCTION

The Port of Edmonds is a Special Purpose Municipal Government as per RCW Title 53. The Port was created in 1948 by a vote of the citizens of the Port district. The district encompasses portions of the City of Edmonds and all of the Town of Woodway. Ports exist to build infrastructure and promote economic development and tourism within their districts. Ports are often, though not always, involved in transportation activities.

The Port of Edmonds operates a marina on Puget Sound for recreational boating. The marina consists of an in-water facility with approximately 660 slips, a dry stack storage facility with approximately 225 spaces, two public boat launches, a boatyard, a fuel dock, guest moorage, and parking facilities. In addition to the Port's marina operations, the Port rents its land to commercial users who then build suitable facilities on the land. The Port also owns and manages eight buildings, renting portions of those buildings to approximately 60 tenants. Major tenants include a hotel, an athletic club, three restaurants, a yacht dealer/repair facility, and a yacht club.

Five elected Commissioners set policy and provide direction for the Port. The Commissioners have appointed an Executive Director to manage Port operations.

BUDGET PROCESS

The Port Commission approves the budget on an annual basis. The budget is a plan that:

- 1. Identifies resources for operations and capital projects.
- 2. Communicates the sources of revenue and costs of services.
- 3. Allows the Commission and staff to review and prioritize repairs, improvements, and other projects.

Actual results may differ from the budget due to changed facilities or equipment conditions, changed priorities, and changed economic environment. Funds may be reallocated to pay for repairs or other market opportunities as may be presented, consistent with the Port's mission.

The Port of Edmonds implemented the cash flow schedule in 2012 as a method of determining moorage and dry storage rates and planning for future large capital expenditures such as replacing major marina structures. The Cash Flow Model estimates future cash and investments based upon projected revenues and expenses and known major capital improvements. 2021 is the 10th year of the Cash Flow Model.

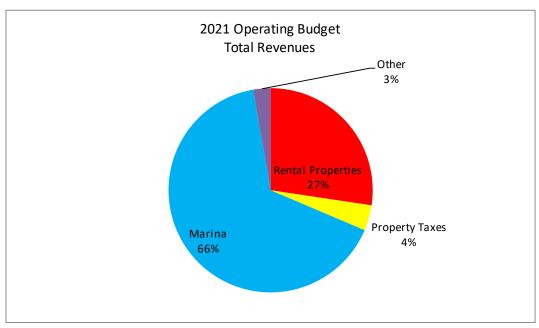

The Cash Flow Model is the basis for the 2021 budget. At the April 8, 2013 Commission meeting, the Commission recommended a moorage and dry storage rate increase of CPI plus 1%. At the August 20, 2020 Finance Committee meeting, the Finance Committee reaffirmed that recommendation. CPI for the year ending June 30, 2020 is 0.9%. The CPI number used for Port revenue increases and staff wage increases is the CPI for All Urban Consumers. All Items in the Seattle-Tacoma-Bellevue area.

USING THE BUDGET

The 2021 Preliminary Budget packet is attached. The annual budget consists of the marina budget, the rental property budget, the overhead budget, the capital budget, the projected cash flow schedule, as well as proposed moorage, dry storage, and marina operations fees.

The <u>Marina Operating Budget</u> on page 9 shows the revenues and expenses for permanent water moorage, dry storage, electricity, environmental, fuel and oil products, guest moorage, workyard, and launcher. Moorage and Dry Storage rates are budgeted with an increase of CPI + 1%, which is a 1.9% increase. The Port uses the Consumer Price Index, All Items, Seattle-Tacoma-Bellevue for All Urban Consumers. It will be referred to as CPI during the discussions. The <u>Marina Operating Budget Notes</u> on pages 10-16 provide the assumptions and explanations for the line items in the Marina Budget. \$50,000 of property tax is allocated to the marina to support the public launcher.

The <u>Rental Properties Operating Budget</u> on page 17 shows the revenues and expenses for the Port's rental properties, which include Harbor Square Property, Anthony's Restaurant, Edmonds Yacht Sales, the Landing, POE 2/Jacobsen's, and the Yacht Club. The <u>Rental Properties Operating Budget Notes</u> on pages 18-21 provide the assumptions and explanations for the line items in the Rental Properties Operating Budget.

The <u>Overhead Operating Budget</u> on page 22 shows the revenues and expenses that cannot be specifically allocated to a cost center. Examples include but are not limited to Commission costs, attorney costs, Port vehicle costs, depreciation and maintenance of the Administration building, and computer maintenance. The <u>Overhead Operating Budget Notes</u> on pages 23-27 provide the assumptions and explanations for the line items in the Overhead Operating Budget.

The <u>2021 Combined Operating Budget</u> on pages 28 and 29 combines the marina, rental property, and overhead budgets.

The <u>Combined 2016-2019 Actual, 2020 Projected, and 2021 Budget</u> on pages 30 and 31 shows the actual revenues and expenses for 2016 through 2019, the projected revenues and expenses for 2020, and the budgeted revenues and expenses for 2021. Port of Edmonds Marina 2021 Operating Budget Notes

The Marina budget includes the following cost centers: permanent water moorage, dry storage, electricity, environmental, fuel and oil products, guest moorage, boatyard, and launcher. Launcher expenses that exceed its revenues are supported by a property tax allocation for this public amenity.

Revenues:

- (M1) Electrical fees based on current projected year end. The electrical base rate covers reading the meters, depreciation on the purchase of the meters, repair and maintenance of the meters, insurance, business taxes and overhead. Revenues include an electrical base rate, which is typical for many marinas in the area, and pass through for actual electrical usage.
- (M2) Environmental \$11.00 per slip or space per month to cover increasing costs of complying with the boatyard permit including monthly testing and reporting; properly disposing of hazardous materials such as bilge water, paint, batteries, oil; hazardous material handling classes, etc. No increase proposed in 2021. 2021 budget based estimated 2020 revenue.
- (M3) Environmental fee boatyard Includes environmental fee and reimbursement for tarp supplies.
- (M4) Fuel sales based on average of last 5 years.
- (M5) Launcher launcher revenue is very dependent on the fishing and the weather. Revenue is budgeted as an average of the last 5 years. Lack of fish openings have decreased revenue. The marina budget includes a property tax allocation of \$50,000 on line M41 for this public facility.
- (M6) Miscellaneous based on last 5 years average revenue. Miscellaneous revenues include clean up fees, engine hauls, workboat tows, pumpouts, sublease fees, wait list fees, boat destruction fees, etc.
- (M7) Guest moorage revenue based previous 4 years. The Port uses a seasonal guest moorage rate structure. For 2021, summer rate is \$1.60/ft, winter rate is \$1.45/ft.
 The seasonal rate structure matches that of the market. The 2018 reconfiguration of guest moorage may affect the types of boats we are able to accommodate.
- (M8) Permanent moorage Presented is a rate increase of CPI + 1%, with a 4% vacancy. CPI is 0.9%. This is a \$78,000 increase over 2020 projected revenue. This is an average increase of \$9.80 per slip, per month. Moorage rates are listed on pages 37 and 38.
 - The Consumer Price Index used by the Port is the Consumer Price Index, All Items, Seattle-Tacoma-Bellevue for All Urban Consumers. For the rest of this document, it will be referred to as CPI. The table is attached on page 36.
- (M9) Passenger fees estimated at 10,000 passengers at \$1.48.
- (M10) Dry storage revenue Presented is a rate increase of CPI + 1%, with an 12% vacancy. CPI is 0.9%. This is a \$46,000 increase over 2020 projected revenue. This is an average increase of \$6.67 per slip per month. Fishing seasons greatly affect Dry Storage occupancy.

 Dry storage rates are listed on page 39.
- (M11) Parking based average of last 5 years. Includes parking permits, parking for trucks and trailers, and parking revenues from whale watching. RV parking and commuter parking offset overhead expense.
- (M12) Travelift based average of last 3 years.

Port of Edmonds Marina 2021 Operating Budget Notes

- (M13) Boatyard based on average of last 4 years.
- (M14) Late fees in 2016 the Port increased late fees from 1% or \$10, whichever is greater to 1% or \$50 as \$10 did not seem to be a sufficient incentive to pay on time.
- (M15) Bad debt expense 2019 projected. Accounts are written off and sent to collections. If collections is able to collect funds, the Port adjusts bad debt expense.

Expenses:

(M16) Cost of sales - consists of credit card fees for moorage, dry storage, Marina Operations services and tarp and tape for the boatyard.
