## LIFE JACKET SAFETY

### **Why should people of all ages wear life jackets?**

Drowning is swift and silent. It can occur in as little as 30 seconds. In 2013, there were 103 drownings in Washington state. The highest rates were among 18-19 year olds. Washington state law requires children ages 12 years and younger to wear a lifejacket at all times on vessels less than 19 ft long.

### **When buying a life jacket check for:**

- Coast Guard approved label
- Snug fit
- Head support and a strap between the legs for younger children
